

## SAJJAD HASSANZADEH

Backend Developer

Software developer with over eight years of experience in coding , launching and others

Hassanzadeh.sd@gmail.com

+98 937 8228 100

Mrhassanzadeh.ir

### About me :

I have a passion for creating new projects using **Python** and **Django**, I spend a part of my time every day for learning new technologies and acquiring new skills along the way, I enjoy scheduling for my everyday life and it's very important for me since I had a couple of bad years for not doing it properly. finally, this poem of Hafez sums up my view in personal life :

For peace of this world and the next, understand what I advise

Magnanimity the lot of friends, and with foes try to relate.
